

Letter of recommendation for Emile Chuffart

Dear Sir / Madame

This reference letter is written on behalf of Emile Chuffart, whom I had the pleasure to get to know during his internship with us here at Above Agency.

Emile spent 6 months with us working on a broad variety of projects. Anything from pitching in for smaller tasks like sketching, prototyping, renderings, video making and editing to be trusted to take the design lead on parts of projects. Making sure to deliver on time and at quality communicating not only with the internal team but also presenting directly to the end client.

Emile have a positive attitude, a team player willing to listen and learn but also to come with a point of view and opinion. Blending straight in to the team and was treated like a equal already from day one. Taking responsibility for the tasks that he have been given and going the extra mile to make sure to deliver.

On a more personal level Emile is just a great guy to have around. Spreading joy and positivity to the workplace and I have no hesitation to recommend him to any team that are looking to hire a promising young designer to their team.

For any further enquirers don't hesitate to reach out to me at simon@above.se

Sincerely,

Senior Industrial Designer
